If I had one wish... It would be to be able to study/practice my Magic in peace. Such as in the time of the library of Alexandria. Why can't WE as Occultists have our own "Library of Alexandria"? Why should WE not also be recognized as other "so-called" religions? Why should we not have our OWN library based on OUR Occult traditions and philosophy? There once was a time when we were all FREE to practice and share our Occult knowledge and traditions. Enlightening and helping one another. As in the time of Alexandria. I wish for this time again. A pilgrimage. To create a NEW Alexandria of our own. A place where we can study and work in peace. A place where we can be ourselves. A place where our power, and knowledge is free to be expressed to the absolute fullest. From Right to Left. Sorcerer to Mystic. Pagans to Hermetic....
We are ALL Occultists.

I feel this is a time where we should also be thinking about the preservation of OUR traditions and customs. Why?.... Well. Because I feel that it's only a matter of time before the Orthodox religions once again come after us. Since this administration has taken office. Everyday more and more of these Evangelist Christians flock to these false prophets. And more and more I hear them criticize our brethren and place blame on us. Of course this is just speculation. But I still feel that we should have our own Alexandria (our own safe haven). I'm willing to invest all of my efforts to make this possible. But clearly I cannot do this alone. So I would like to ask to at least talk about it with all of you. What are your thoughts?
